linkedin.com/in/scottvandehey

I am a CSS ninja from Portland, Oregon who has been making websites for over 15 years. Between my education in graphic design and my experience working alongside programmers, I specialize in bridging the gap between design and development.

### Experience

#### **Burnside Digital, Senior Front-End Developer** — 4/11–Present

Provide front-end production for selected clients including Food Network. Push client adoption of mobile support and CSS3 standards like media queries and @font-face. Drive adoption of maintenance-focused best-practices and expansion of front-end as a discipline in the organization. Speaking at conferences and blogging. Revamped company blogging strategy and overhauled company branding.

#### **Burnside Digital, Creative Director** — 7/12–1/13

Head of the newly established creative team, consisting of front-end developers and UX designers. Responsible for establishing overall creative team direction and strategy, as well as coordinating with biz-dev team to promote these services to our clients. Resumed my former duties as a front-end developer when the position was eliminated during a restructuring.

#### **Metal Toad Media, Front-End Web Developer** — 1/10–3/11

Created standards-compliant sites for a variety of clients, including Limewire and the Emmys. Most of these were Drupal themes utilizing CSS3, XHTML/HTML5, and jQuery. Helped to promote social media as a marketing tool, including Twitter, Facebook and blogging. Created a Drupal 7 base theme using HTML5, and began speaking at conferences about HTML5, Drupal theming, and web standards.

#### **Pop Art, Inc., Front-End Web Developer** — 11/05–10/09

CSS and XHTML production of large-scale web sites. Worked closely with designers and programmers, applying design comps to functionality. Advocated a web-standards approach to increase search engine optimization and accessibility. Worked to promote blogging as an internal and external communication and promotional tool. Required excellent communication skills, self-motivation and technical expertise.
